ABOUT ME:

Hello I'm Clifford, I'm a computer programmer who is very curious about technology that is why I'm always willing to learn new things. I am a hardworking individual who always put priorities first. In working, I always have goals to achieve for me to grow personally and of course with the team as well. I'm hoping that I can get a job where I could further hone my skills, grow as a developer, doing something in line with my interests and contribute to the team or company.
